BUCKBEE'S "FULL OF LIFE" BULBS, SEEDS, PLANTS

SPECIAL BULB CULTURE

For all Dutch Bulbs which are Planted Out Doors in Fall for Early Spring Flowering.

Notice the diagram, as it is a whole book in itself, telling how deep and how far apart the different bulbs should be planted. Of course one should have good rich soil, and a sunny situation. That is really all there is to it. Out-door planting should be done early in the Fall to secure healthy plants, vigorous foliage and beautiful flowers.

Our Special Leaflet on Bulb Culture for out-door and in-door planting Sent Free with All Orders for Bulbs selected from this Catalogue.

FAIR PLAY GUARANTEE

FIRST—We guarantee that all goods sold from this catalogue shall reach customers in good condition.

SECOND—Terms Cash with Order (we keep no book accounts). No goods sent C. O. D. We guarantee to hold ourselves responsible for the safe arrival of all remittances sent us by P. O. Order, Bank Draft, Express Order or Registered Letter. On orders amounting to over \$1.00 the cost of remitting by any of these methods may be selected in extra bulbs or seeds free.

THIRD—We guarantee to deliver free of charge in the United States all Bulbs, Seeds and Plants listed in this catalogue, except such items as are plainly marked to be shipped by Express at purchaser's expense.

FOURTH—We guarantee Buckbee's "Full of Life" Bulbs, Seeds and Plants to be just as represented—if they prove otherwise, we will refill the order free of charge or refund the money paid us for same.

CUSTOMERS FROM CANADA AND FOREIGN COUNTRIES must send Twenty-five Cents additional for Postage and Packing on each Dollar's Worth of Seeds and Bulbs ordered. Remember please that we cannot accept Canadian or Foreign Postage Stamps.

NOTICE—If you are interested in other items of Seeds and Plants not listed in this Special Fall Catalogue please refer to

OUR BIG GENERAL CATALOGUE FOR 1922

which gives a complete list of Buckbee's "Full of Life" Seeds and Plants.

READ THESE FEW WORDS ABOUT RELIABLE SEEDS

From Good Seeds only can good crops be grown, yet a great many contingencies may arise to prevent the best seeds from giving satisfaction, and for all these reasons we cannot, of course, guarantee or be responsible for a crop, as success is dependent upon natural causes which are beyond human control. Therefore, we do not warrant in any way, express or implied, the contents, or the description, quality, productiveness, or any other matter of any Bulbs, Seeds or Plants sold by us, and we will not in any way be responsible for the crop. If the purchaser does not accept these goods on above terms, no sale is made thereof, and he must return them at once, and the money will be refunded. Subject to above conditions we make this sale, at the moderate prices at which we sell our goods.

OUR BIG NEW CATALOGUE FOR 1923 will be issued about the first of the year; if you fail to receive your copy in proper season, kindly let us know.

Bulbs Ready for Shipment About September 15th

Our stock of bulbs arrives from Holland early in September, and we will be ready to commence filling orders on or about the 15th of that month. You can send your order to us as soon as you receive this catalog and shipment will be made when we receive the bulbs from Holland. We advise the placing of orders early, as our stocks of all varieties may not be complete late in the season.

RESURRECTION PLANT

Most Unique Novelty
A Marvel of Plant Life

This peculiar plant is found among the pines and cedars of Palestine. It is a ball of tightly folded leaflets, dry and apparently dead. But a transformation takes place once it is dropped into a bowl of water, for in a short time there is a great, loose, expanded rosette of fine fern-like leaves, both odd and beautiful. This can be repeated many times, the plant curling tightly together when dry, expanding when soaked. 20c each; 3 for 55c; postpaid.

H. W. BUCKBEE, Rockford Seed Farms Forest City Greenhouses Rockford, Ill.

HYACINTHS

For Winter and early Spring flowering, nothing surpasses the Hyacinth. It is sure to bloom and give satisfaction in the house during Winter, or in the garden in early Spring. We consider the Single Hyacinths more useful and valuable than the double varieties. They are better for forcing, more vigorous in growth, and produce stronger spikes of bloom, which are at least as beautiful as those of the double sorts.

Our stock of Hyacinths consists of the finest bulbs, sure to bloom, and were grown by the most reliable growers in Holland, and have been selected with the utmost care as regards varieties that in our judgment will give the very best results for outdoor or house culture. Our assortment contains the cream of all the more desirable sorts, and we take this opportunity to assure intending purchasers that

these bulbs cannot be obtained to better advantage elsewhere.

BUCKBEE'S "FULL OF LIFE"

BEST NAMED SINGLE HYACINTHS

NEWEST VARIETIES

Prices on single Bulbs and dozens, prepaid, larger quantities by express at purchaser's expense.

- Czar Peter**—Light porcelain blue. Large spike.
- Caribaldi**—Brilliant carmine. One of the earliest and best.
- Gertrude**—Rosy pink; compact flower. Fine for pots or out of doors.
- Gigantea**—Lovely shade of light pink or rosy white. Good size.
- Grandeur a Merveille**—Blush white. A beautiful flower, unsurpassed for bedding.
- Herman**—True orange yellow. Truly a distinct color. Of good size.
- LaGrandesse**—Snow white, perfect shape and of large size.
- Menelik**—Darkest blue, almost black. A new color and very satisfactory.
- Roi des Belges**—Dark red, very fine truss and a popular sort.
- Yellow Hammer**—Golden yellow. The earliest and best yellow for forcing.

Price any of the above, 12c each; \$1.25 doz.; \$9.50 per 100.

BUCKBEE'S "FULL OF LIFE" SPECIAL MIXTURE SINGLE HYACINTHS

The very best colors and shades in special mixture. Price 3 for 30c; \$1.10 doz.; \$8.50 per 100.

FINE MIXED—A very satisfactory assortment. Fine Bulbs, 3 for 25c; 90c doz.; \$7.50 per 100.

Buckbee's "Full of Life" HYACINTHS

SELECT NAMED DOUBLE

In the following list of double flowering Hyacinths we offer you the latest improvements in this popular flower. We have made every effort to obtain the most distinct and richest colored varieties producing the largest flowers.

Double Hyacinths are identical with the single in every way except the added petals.

Blocksberg—Perfect shape—light blue.

Bouquet Royal—Salmon pink—red center.

Bouquet Tendre—Deep carmine red.

Goethe—Light yellow.

Isabella—Delicate blush white.

La Tour d' Auvergne—Pure white.

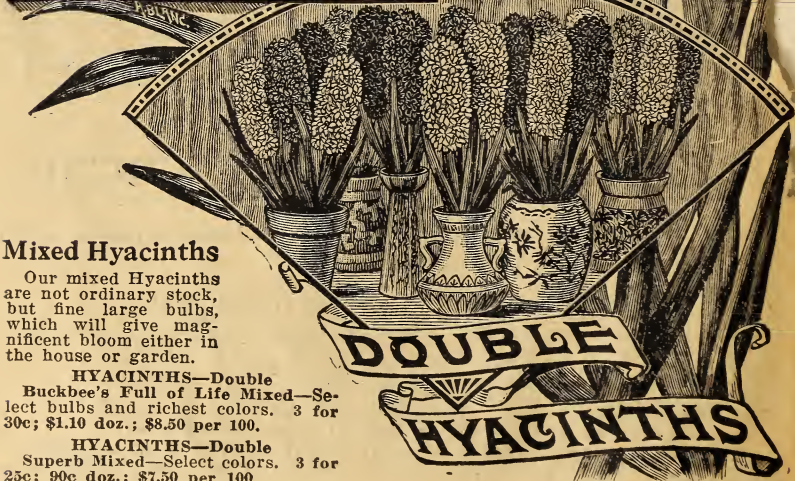

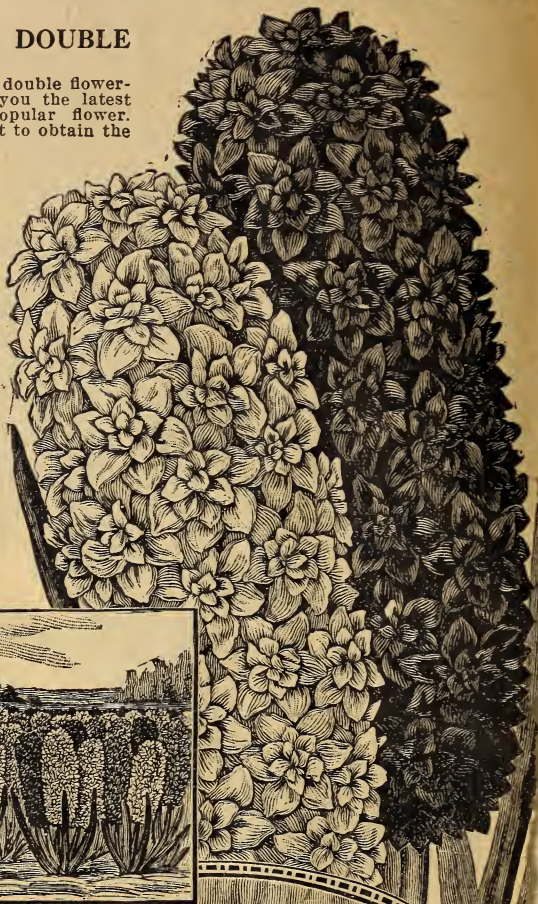

Lord Wellington—Finest light pink.

Minerva—Orange yellow—a wonderful color.

Noble Par Merite—Deep rose.

Othello—Rich dark blue.

Price any of the above 12c each; \$1.25 doz.; \$9.50 per 100.

Mixed Hyacinths

Our mixed Hyacinths are not ordinary stock, but fine large bulbs, which will give magnificent bloom either in the house or garden.

HYACINTHS—Double

Buckbee's Full of Life Mixed—Select bulbs and richest colors. 3 for 30c; \$1.10 doz.; \$8.50 per 100.

HYACINTHS—Double

Superb Mixed—Select colors. 3 for 25c; 90c doz.; \$7.50 per 100.

Prices on single bulbs and dozens prepaid, larger quantities by express at purchaser's expense.

Giant Flowered Exhibition

Giant Flowered Exhibition Hyacinths

These Are the Best That
Can Be Secured

We import these extra select bulbs especially for those of our customers who wish to grow Extra Fancy Giant Flowers. They do equally well in pots or glasses in the house or out of doors. If you want the best, try some of these.

Ball of Gold—Golden yellow. Always makes a satisfactory flower.

British Queen—Pure white; a grand flower; very early and of splendid size and substance.

Enchantress—Fine light blue, large compact truss and extremely showy.

Grand Maitre—Deep porcelain blue, large bells; elegant perfect shaped spike.

Ivanhoe—Deep indigo blue. Acknowledged the best of the purples and dark blues.

Lady Derby—Delicate rosy pink. Extra large, early and easily grown.

LaFranchise—Rosy white. Large bells and good strong spike.

Madame Van der Hoop—Pure white. We consider this one of the very best.

Robt. Steiger—Fine deep crimson. This is a color that always pleases.

Prices of any of the above Giant Flowered Exhibition Hyacinths 25c each; \$2.50 per doz.

MAMMOTH SHOW HYACINTHS

These elegant flowers, while not quite as wonderful as the Giant Flowered Exhibition varieties, are extremely beautiful, and will please no matter where they are used. Bulbs of large size, and flowers are truly mammoth.

SINGLE

General Vetter—Rosy white; large truss and a good forcer.

Grand Lilas—Deep porcelain lilac, good shape and large blooms.

King of the Blues—A favorite everywhere. Deep rich indigo blue.

King of the Yellows—Bright golden yellow. Large bells and spike.

Marconi—Bright rosy pink. Large flowers on strong stems.

Mimmi—Beautiful flowers of clearest pure white.

Mr. Stanley—Brilliant dark red. A beautiful flower in every way.

Ouida—Pure white. Unequalled for house or garden.

Queen of the Blues—Large light blue.

Has always been a popular variety.

Price any of the above Single Mammoth Show Hyacinths 20c each; \$2.00 per doz.

DOUBLE

Delicata—Light blue—large flower—fine keeper.

Edison—Pure white, early and ideal shape and substance.

Flevo—Milk white color, strong stem, sure bloomer.

General Kohler—Splendid intense blue. Large bells and spike.

Koh-i-noor—Bright rose color. The best of the double pink or rose color.

Prince of Orange—A semi-double rose colored flower named in honor of the Prince of Orange.

Sunflower—An unusual color. Yellow tinted salmon.

Price any of the above Double Mammoth Show Hyacinths 20c each; \$2.00 per doz.

Mammoth Show Hyacinths

NOTICE—Send your order at once and will ship as soon as bulbs arrive from Holland. Usually early in September.

Buckbee's Miniature or Pan Hyacinths

Buckbee's "Full of Life" MINIATURE OR PAN HYACINTHS

A Rare Novelty from Holland

A class of Hyacinths with comparatively small bulbs, and as they are usually compact growers, can be more cheaply grown than the larger bulbed class. While the spikes scarcely average as heavy as other Hyacinths, the difference is small, and many specimens are fully equal to the best of the latter. They are splendid for either garden or pots, while for cutting they are the best of all. We offer the most desirable colors and the flowers are large and wax-like, and the spikes airy and graceful.

Separate colors as follows:

Pure White
Blush White
Rose

Light Pink
Red
Dark Blue

Light Blue
Yellow

Price of Pan Hyacinths 3 for 20c; 70c doz.; \$5.00 per 100.

Buckbee's "Full of Life" ROMAN HYACINTHS

Roman Hyacinths

Beautiful, small size Hyacinths, similar to but smaller than the regular Hyacinths shown on the preceding pages. All are especially desirable for pots, pans and boxes, very sure bloomers and suitable to use as cut flowers. Of late this class of flowers has become very popular, as they blossom much earlier than the large Hyacinths. The lovely small flowers make a charming effect either in pans or pots. Bulbs potted in September are usually in flower in November and December.

The following are the best of the Romans:

Albertine — Pure clear white.

Amy — Rich bright carmine.

Grand Blanche — Delicate blush white.

Jacques — Rose pink — very early.

Johan — Beautiful light blue.

Moreno — Waxy pink — fine and distinct.

Nador — Deep blue. Very desirable.

Sonora — Nankeen yellow, one of the best.

Price any of the above Roman Hyacinths 3 for 22c; 75c doz.; \$5.50 per 100.

NOTICE—All of the bulbs listed in this book are imported from Holland, and usually arrive early in September. Send your order at once so we can ship as soon as in. Single bulbs and dozens sent by mail postpaid. Hundreds by express at purchaser's expense.

L'Immaculee—The Best Pure White Single Early Tulip

BUCKBEE'S "FULL OF LIFE"

TULIPS

The people are appreciating the beauty of Tulips more and more every year. There is so little trouble in bringing them to perfection, whether planted out or in pots, and they are so valuable that no garden or window should be without them. For gorgeous colors and brilliant effects planted in beds and borders the Tulip stands unrivaled. There are no bulbs which make such a rich display of blossoms with so little care and cultivation. As with most flowers, single varieties succeed better than double when forced. For this purpose they should be planted as early as possible.

Although there are many hundreds of varieties of single Tulips, we have selected only those which will give the best results, and which show the most desirable colors and shades. The following can be depended upon for general satisfaction.

Buckbee's Best Named Single Early Tulips

The Single Early Tulips are grand for outdoor bedding and for Winter blooming in pots. The following are the very best kinds:

Artus—Bright scarlet; dwarf, good bedder.
Cardinal's Hat—Dark brown red. Very select.
Chrysolora—Pure golden yellow; fine for forcing or bedding.
Crimson King—Clear bright intense crimson scarlet color.
Duchesse de Parma—Bright orange scarlet—bordered yellow.
Keizerkroon—Crimson scarlet; edged bright yellow. Large showy flower.
La Reine—White, slightly shaded rose. The most popular white tulip.
L'Immaculee—Pure white, large flower, sure bloomer.
Pottbaker White—Exquisite elegant flower of large size.
Rosamondi—Rose and white, beautifully blended.
Rose Gris de Lin—Blush white, edged delicate rose.
Striped—A delightful combination of colors.
Yellow Prince—Golden yellow and often sweet scented.

Price any of the above desirable Single Early Tulips 3 for 20c; 70c doz.; \$4.50 per 100.

Buckbee's "Full of Life" Mixed Single Early-Flowering Tulips

Selected named varieties carefully mixed together in such proportion as will give a beautiful array of colors. All blooming at the same time. Price, 6 for 35c; 60c doz.; \$3.75 per 100.

Good Mixed Single Early Tulip

The sorts usually sold by dealers; good value for the money, but not to be compared with our "Full of Life" mixture. Price, 50c doz.; \$2.75 per 100.

Buckbee's Striped Single Early Tulip

Single and dozen prices include postage. The 100 rates are by express at purchaser's expense.

DOUBLE EARLY TULIPS

Double Tulips produce very large double flowers, many of which are as large and showy as a Paeony. The bright colors of the large double blossoms contrast splendidly and make a charming display. They are beautifully adapted for beds on the lawn, in the garden and for mingling in clumps of half a dozen or more around the edges of shrubbery. They are exceedingly effective. The early sorts do splendidly when grown in pots for winter blooming, but must be forced much slower than Single Early Tulips by keeping them cooler.

BUCKBEE'S "FULL OF LIFE"

Best Named Double

EARLY TULIPS

The following varieties are the most highly improved of the Double Tulips. The colors are desirable and flowers beautiful.

Gloria Solis—Clear bright red with a distinct border of brightest orange yellow.

La Candeur—Beautiful pure white. Medium early and a fine flower.

Murillo—Finest light pink or blush white. Full very double flowers.

Rex Rubrorum—Brightest scarlet. Equally desirable for house or garden.

Rubra Maxima—Splendid bright scarlet; the finest of all the double scarlets for forcing.

Salvator Rosa—Splendid deep rose pink and very double.

Scarlet King—Pure deep red color. One of the newest.

Striped—A delightful combination of colors.

Toreador—Orange scarlet color. Very distinct and beautiful.

Tournesol—Red bordered yellow. Large flower, easy to grow.

Yellow Rose—Large double yellow; early and an unusual color.

Price of the above Double Early Tulips, 3 for 20c; 75c doz.; \$5.00 per 100.

New Double Tulip—Electra

Offered last year for the first time.

This is the finest Double Red or Scarlet Tulip we have ever seen. Our Holland grower has been working on this novelty for years, and we are now able to offer it for the first time.

Fancy Select Bulbs 15c each; \$1.50 doz.; \$10.00 per 100.

Buckbee's "Full of Life" Mixed Double Early Tulips

The best varieties of Double Early Tulips are comprised in this finest of all mixtures. You will make no mistake by ordering this assortment. Selected Bulbs, 6 for 35c; 65c per doz.; \$4.25 per 100.

Good Mixed Double Early Tulips

Selected varieties mixed carefully together in such proportion as will give a beautiful array of colors. All blooming at the same time. Price, 55c per doz.; \$3.00 per 100.

NOTICE—Send in your order for bulbs at once and we will ship as soon as stock arrives from Holland, usually early in September. Single bulbs and dozens postpaid. 100 or more by express at buyer's expense.

Parrot or Dragon Tulips

PARROT OR DRAGON TULIPS

FOR THE OPEN GROUND ONLY

The most beautiful and interesting class of Tulips, which should be in every garden. The flowers are very large and perfect in shape, the petals are corrugated and toothed, while color is the most striking combination of crimson and golden yellow, streaked and edged with green, resembling the plumage of a parrot, whence these Tulips derive their name. A bed of these makes a gorgeous display, paying hundred-fold for any trouble that may be bestowed upon them.

Price, Select Bulbs, 6 for 40c; 70c doz.; \$4.50 per 100.

Late or May Flowering Tulips

These Tulips are quite distinct from the early flowering kinds—coming later, they extend the blooming season two or three weeks longer, and are usually at their best about Decoration Day. They are exceedingly hardy and therefore excellent for planting in the perennial border or among the shrubbery, where they remain undisturbed for years. The colors and markings of late Tulips are truly magnificent.

Double Late Mixed—Desirable colors and markings in assortment. Price 6 for 35c; 55c doz.; \$4.25 per 100.

Single Late Mixed—Everyone should have at least a dozen of these beauties. All the best colors assorted. Price 6 for 35c; 60c doz.; \$3.75 per 100.

May Flowering Tulips

Buckbee's "Full of Life" DARWIN TULIPS

**Gorgeous
and
Effective**

Darwin Tulips are more largely grown every year and considering the splendid form and exquisite coloring, the immense size of the numerous varieties it is not surprising that these flowers have obtained great popularity.

They are late May-flowering tulips, but are quite distinct in style of growth from others of this class; they are very stately in appearance, attain a height of 2 to 3 feet and bear on long stems beautiful, globular flowers of lasting wax-like substance in a great variety of brilliant colors.

They are exceedingly effective when grown in groups of a dozen or more in the garden; as cut flowers they are unsurpassed and in pots these tulips are also lovely and can be successfully flowered in the house if grown in a cool room and not forced into bloom before March.

Maiden's Blush

DARWIN TULIPS

These wonderful flowers are so effective when grown in separate colors that we are listing a few of the best varieties as well as mixtures.

Maiden's Blush—The prevailing color of this is a light colored ground, almost white, with rose stripes. Many are also beautifully feathered. Price 3 for 20c; 70c doz.; \$5.00 per 100.

Marcella—Another beautiful and unusual flower, which usually comes in a combination of scarlet and blue on the same flower. Price 3 for 20c; 70c doz.; \$5.00 per 100.

Painted Lady—A wonderfully colored flower, being white with a red border. The only one we have ever seen of these colors. Price 3 for 20c; 70c doz.; \$5.00 per 100.

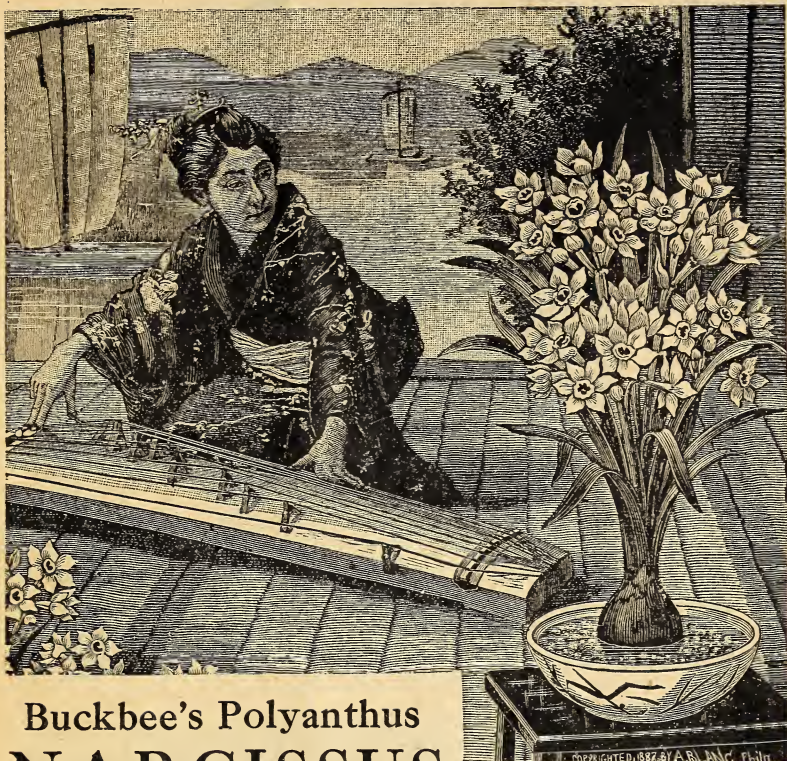

Picotee—Waxy white, pink edged and of elegant form. Fine for cut flowers. Price 3 for 20c; 70c doz.; \$5.00 per 100.

President Taft—An unusually large flower of terra cotta color, blended with violet. Quite sweet scented. Price 3 for 20c; 70c doz.; \$5.00 per 100.

Selected Mixed—Over 30 varieties. A showy mixture of colors and markings. Price 6 for 40c; 65c doz.; \$4.25 per 100.

Marcella

Buckbee's Polyanthus NARCIS-SUS

The **Polyanthus** varieties of **Narcissus** are not only beautiful but deliciously sweet-scented, and of the easiest culture; very free-flowering, and suitable for window garden, conservatory or garden, continuing long in bloom. They bear tall spikes of bloom, bearing from six to twenty-four flowers each. The pure white petals and gold cups of some varieties, the yellow with deep orange cups of others and the fine whites and yellows render them great favorites. These are considered the best of all **Narcissus** for pot culture, and by many esteemed the most beautiful. Choicest mixed colors—2 for 15c; 75c doz.; postpaid.

By express, purchaser's expense, \$5.25 per 100.

Giant "Paper White" Narcissus

A Bulb Which Everyone
Should Plant

This large flowering type is an improvement over the ordinary "Paper White." It is more vigorous and earlier, producing purest snow-white flowers of large size and good substance in large trusses, and is more largely used for early forcing for cut flowers than any other bulb, being flowered without difficulty by Christmas, and if required even much earlier. Paper White **Narcissus** do splendidly when grown in bowls of water and pebbles or moss the same as Chinese **Narcissus**. Bulbs, 3 for 35c; \$1.30 doz.; postpaid.

Polyanthus Narcissus

NARCISSUS

(DAFFODIL)

The Narcissus, with the exception of the Polyanthus variety, are hardy as rocks and succeed splendidly in any good soil; they are especially adapted for naturalizing, that is, grown as if wild in the grass, under the trees, etc. They soon establish themselves and increase and flower year after year. Narcissus are equally valuable for winter flowering in the house, thriving well in pots or pans with earth and also in bowls with moss and water. They do not look well as single specimens in a pot, but are very desirable if several are planted together. The early sorts commence blooming in March, some in favored locations even in February. Their waving masses of silver and gold are not only enchantingly beautiful but doubly welcome, appearing as they do just after bleak winter. With a selection of mid-season and late flowering kinds an endless succession of bloom may be enjoyed well into May.

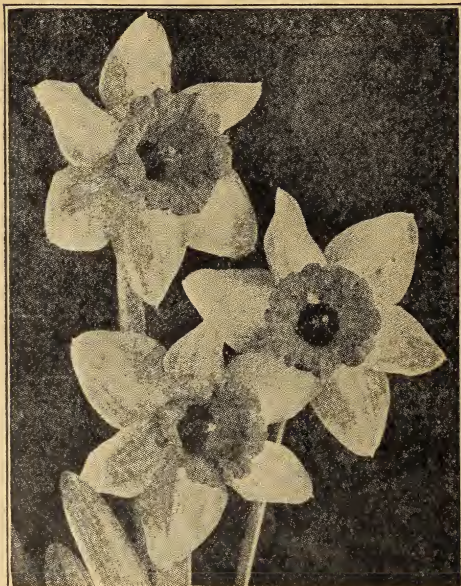

Narcissus, Emperor

THE BEST SINGLE VARIETIES

Selected Bulbs for Either Garden or Home Culture

The airy grace and refined beauty of the Single Narcissus has no superior and few equals among flowers. The beautiful trumpet forms are the height of floral beauty, and the color harmonious and refined.

Madame de Graff—Trumpet is primrose yellow with pure white perianth. Very large and beautiful. The Queen of Daffodils. 10c each; \$1.00 doz.; \$7.00 per 100.

Narcissus, Madame de Graff

Victoria—Rich yellow trumpet with pure white perianth. Similar to above and very popular. Price 2 for 15c; 70c doz.; \$5.00 per 100.

Emperor—Broad, rich yellow trumpet, perianth deep primrose. Its foliage is very strong and the blooms enormous. 10c each; 90c doz.; \$5.50 per 100.

Empress—Possesses the same gigantic size and form of the Emperor, but with golden perianth and white trumpet. 10c each; 90c doz.; \$5.50 per 100.

Princeps—Elegant large trumpets of a delicate canary-yellow, and large, sulphur-white perianth. Very early. 3 for 18c; 60c doz.; \$4.75 per 100.

Sir Watkin—A gigantic flower, 4 to 5 inches across, with broad winglike petals that shade from canary yellow at the tips to golden yellow base. 7c each; 75c doz.; \$4.95 per 100.

Single Finest Mixed—The best assortment ever offered. All colors and varieties. 3 for 15c; 55c doz.; \$4.00 per 100.

Prices on Single Bulbs and Dozens, prepaid; larger quantities by express, not prepaid. Send your order today and will ship as soon as Bulbs arrive from Holland, which is usually early in Sept.

BUCKBEE'S "FULL OF LIFE"

DOUBLE NARCISSUS or DAFFODILS

Of late years the Double Narcissus have been becoming more and more popular until now with the straight colors and bi-colors they are an ornament anywhere. Double Flowering Daffodils are hardy and especially adapted for open-ground planting, where under congenial conditions they thrive and increase for years. The early sorts are also useful for pot culture and winter forcing.

Prices on Single Bulbs and Dozens, prepaid; larger quantities by Express, not prepaid.

Von Sion—Continues to be a general favorite. Grand and unexcelled. Extra fine for cutting. Single starlike petals and long double trumpet filled with beautifully crimped petals. Color rich golden yellow. Price, select bulbs, 3 for 20c; 70c doz.; \$5.00 per 100.

Alba Plena—Pure white, very double and extremely sweet-scented. Price, select bulbs, 3 for 18c; 60c doz.; \$4.25 per 100.

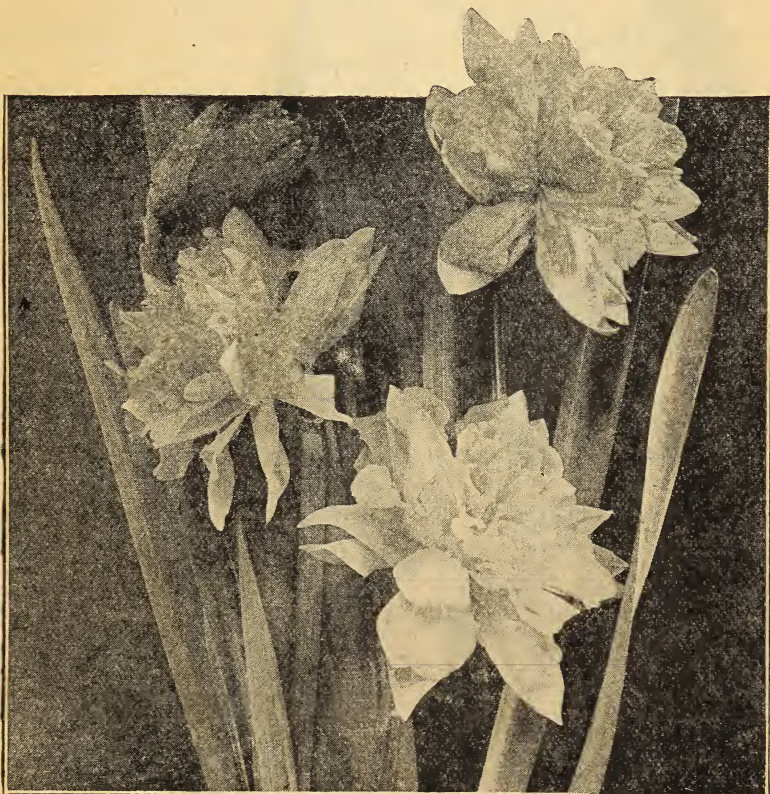

Incomparable—Medium Early. Large handsome flowers as double as a rose. Bright canary interspersed with orange center petals. Price, select bulbs, 3 for 20c; 70c doz.; \$5.00 per 100.

Orange Phoenix—Nearly pure white outer petals. Center well filled with mixed white and deep orange petals. Price, select bulbs, 3 for 20c; 75c doz.; \$5.25 per 100.

Double Finest Mixed—Made up from the finest of the large double sorts. Price, select bulbs, 6 for 35c; 60c doz.; \$4.25 per 100.

NEW NARCISSUS

Harvest Moon—See illustration on envelope in which this catalog is mailed. Very double and bright golden yellow color. The very best of the doubles. Price, selected bulbs, 2 for 25c; \$1.25 per dozen.

Narcissus, Orange Phoenix

GOLDEN FAIRY LILY

Narcissus—Hoop-Petticoat

A rarely beautiful flower, both for winter blooming in the house or for the garden. Three to six bulbs can be planted in an ordinary pot and will produce a charming lot of flowers during February and March. Each bulb bears 3 or 4 flowers at a time. As will be seen by the cut the blossoms are very beautiful in both form and habit; color a fine shade of bright brilliant yellow, and fragrant. In the garden they are hardy and bloom early in the spring. Price, 3 for 25c; 90c doz., postpaid.

NOTICE—Prices on Single Bulbs and Dozens prepaid; larger quantities by express, not prepaid.

Golden Fairy Lily

NARCISSUS POETICUS

Well known and loved by all. Exquisite garden flowers, yet equally valuable for winter blooming in pots.

Poeticus or Pheasant's Eye—Excellent for outside work. Single pure white, orange cup; hardy. 3 for 15c; 50c doz.; \$3.35 per 100.

Poeticus Ornatus—Four weeks earlier than above. 3 for 18c; 60c doz.; \$4.25 per 100.

Narcissus Poeticus

JONQUILS

These dainty flowers are a gleam of gold when in bloom and large clumps or masses of them are always admired. They are extra fine for pots, from their beautiful color, profusion and delightful fragrance and they flower very early in the window. In the garden they are perfectly hardy, and their lovely blossoms appear almost as soon as Crocus.

Single—Very dainty pure gold and very sweet. 3 for 12c; 45 doz.; \$3.25 per 100.

Double—Perfect little golden roses of the most exquisite beauty and fragrance. Nothing finer for bouquets. 3 for 15c; 50c doz.; \$3.50 per 100.

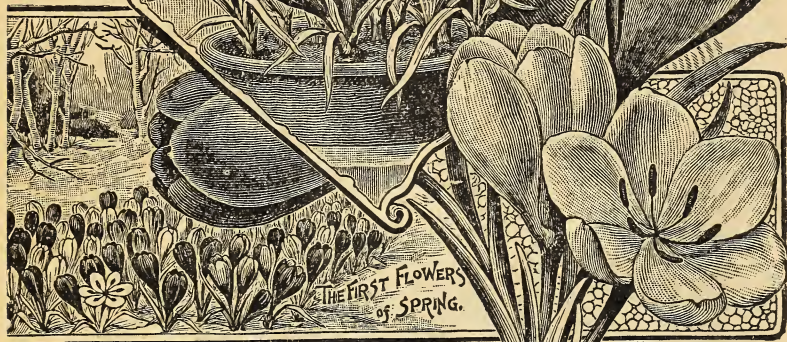

Jonquils, Double

BUCKBEE'S "FULL OF LIFE"

CROCUS

The Crocus is one of the earliest flowers of Spring, and occupies a prominent place in every garden. When planted as an edging in triple lines of one or more colors, the effect is striking. No Spring display surpasses that of Crocus; the broad, wavy bands of golden-yellow, striped, purple or of pure white, when they expand their blossoms in February and March, are incomparable. In lawns and pleasure parks, planted in the grass, the Crocus is extremely effective. It is of the greatest value for pot culture in the house, as by planting at intervals a succession of blooms can be had through the Winter.

BUCKBEE'S GIANT CROCUS

CROCUS.

These are large bulbs of the best varieties, and are remarkable for richness of color and size of their flowers, and are best to use for pot culture where extra fine results are wanted.

	Per doz.	Per 100	Per 1,000
Mammoth Yellow—Golden Yellow	\$0.30	\$1.75	\$15.00
Mont. Blanc—Large pure white	.30	1.75	15.00
Prince Albert—Richest Purple	.30	1.75	15.00
Sir Walter Scott—Finest Striped	.30	1.75	15.00
Buckbee's "FULL OF LIFE" Mixed	.30	1.75	15.00
Blue and Purple Mixed	.25	1.65	13.00
Variegated and Striped Mixed	.25	1.65	13.00
White Mixed	.25	1.65	13.00

Crocus Choice Mixed—(Not less than 100 sold)
—Owing to the extremely low prices we cannot afford to put up packages containing less than 100 Bulbs. Price, per 100 \$1.60; per 1,000 \$12.00.

GOLDEN WATER LILY

The very latest and best flower. Similar except in color to the Paper White Narcissus shown on page 9, and grown in the same manner. Flowers rich golden yellow. Bulbs, 25c each; 3 for 70c, postpaid.

Prices on Single Bulbs and Dozens prepaid, larger quantities by Express, not prepaid. (If large lots are wanted by mail add 25c per 100 bulbs to prices quoted on this page.)

Golden Water Lily

BUCKBEE'S "FULL OF LIFE" WINTER-BLOOMING FREESIAS

Freesia, Purity

NEW FREESIA, PURITY

Possesses Rare Delicate Beauty and Sweet Fragrance

One of the very finest of recent Bulb Novelties. Flowers of enormous size, with thick, heavy, waxy petals that last nearly two weeks, even when cut. Flower pure snow white, save one tiny yellow spot in throat, and of wonderfully beautiful shape, petals being large, rounded and open. Unlike all other Freesias. Grand for winter-blooming in pots. Large bulbs, 3 for 15c; 12 for 50c; \$3.75 per 100, postpaid.

FREESIA, REFRACTA ALBA

A distinct and greatly improved type producing large sprays of purest snow-white flowers of immense size which are deliciously fragrant; it is very free blooming and of great value for forcing for cut flowers. The foliage is narrower and less coarse than that of ordinary strains. 3 for 12c; 45c doz.; \$3.25 per 100, postpaid.

FREESIA, RAINBOW HYBRIDS

Strikingly beautiful, sweet-scented flowers in many delicate colors. 3 for 25c; doz., 85c; 100 for \$5.75, postpaid.

A new class of bulbs, splendidly adapted to winter blooming in the window. They are always sure to succeed and bloom elegantly for anyone in any situation and the great beauty and fragrance of the flowers are everywhere admired. The blossoms or buds when cut and placed in vases of water will keep perfect two weeks. In pots they commence blooming early and continue for a long time, the stems branching freely and producing several clusters of bloom in succession. Four to six bulbs can be planted in a 5-inch pot. They commence growth immediately after planting and need not be put away to form roots like Hyacinths, unless it is more convenient to do so. Planting successively from September to November will give a succession of bloom through the Winter. Their free growth, abundant bloom, delicate beauty and charming fragrance is a delight to all. They are invaluable for bouquets, as they are deliciously fragrant. The bulbs increase each year, so that customers who buy a few dozen may soon have many hundred.

A Valuable New BOOK of Practical Information **HOW TO GROW SEEDS AND FLOWERS**

A complete guide for the house and garden, profusely illustrated. Price 50c, postpaid, or we will send a copy FREE with an order amounting to \$1.50 or upwards, if requested on the order.

Freesia, Rainbow Hybrids

Bermuda Easter Lily

LILIUM CANDIDUM

The Peerless White Lily, Queen of the Garden. Also called Annunciation or Madonna Lily. Although old and common, this is still one of the finest single clear white flowers in cultivation, and no garden, however small, should be without at least one plant of this beautiful variety. It is hardy and should be planted in the Fall.

Extra Select Bulbs, 35c each; 3 for \$1.00.

CHINESE SACRED LILIES

The Chinese Lilies are usually grown in bowls or dishes of water. Put an inch or two of sand and gravel in the dish in which they are to be grown, set the bulbs on this and put enough pebbles around them to keep them from falling over; then fill the dish with water and set in a dark place for a few days, bring them to the light when the roots have started freely.

Each, 20c, or 3 for 70c, postpaid.

BERMUDA EASTER LILY

(*Lilium Harrisii*)

The Grandest Winter-Flowering Plant in Cultivation

Is of the Easiest Culture, Blooming in Wonderful Abundance.

The flowers are delightfully fragrant, pure waxy white, of great substance, and if cut as soon as they open, or partially open, they can be kept with stems in water, for two weeks.

A succession of bloom can be kept up from November to May, by bringing in a few pots of bulbs from cold frames at intervals throughout the Winter.

The quantity of bloom produced is marvelous; the average production of selected bulbs, even when forced, is from 4 to 6 flowers, and of mammoth bulbs 8 to 12 flowers.

Blooming plants in pots form typical Easter offerings and presents for decoration of the window, table, house or church. Nothing is more appropriately beautiful and highly appreciated. Thousands upon thousands are sold in the large cities every Winter for this purpose.

Extra Selected Bulbs—45c each; 3 for \$1.25.

Mammoth. Bulbs—55c each; 3 for \$1.50.

JAPANESE EASTER LILIES

Beautiful Flower. True Type.

About two weeks later than the Bermuda

This improved type of the well known *Lilium Longiflorum*, also called the "Easter or St. Joseph's Lily," comes from the Island of Formosa. The plants are of healthy strong growth—about 3 feet high and produce beautiful snow-white trumpet-shaped flowers, 6 to 8 inches long. It is perfectly hardy (if given a little protection) and a splendid garden lily blooming in the open in June and July. This Lily is also a very important winter flowering type, thousands of the bulbs being imported for florists and others who "force" them as pot plants and for cut flowers. It is not quite as early as *Lilium Harrisii*—but for "bringing in" soon after Christmas it is well adapted. Fine Select Bulbs, 40c each; 3 for \$1.15.

Chinese Sacred Lily

Rare Tropical FRUITS For Pot Culture

These make the most interesting pot plants for the house and are the easiest of all pot plants to grow. Some are handsome in foliage, in blossoms, and all showy, interesting and luscious in fruit, and some of them fruit the greater part of the year.

SURINAM DWARF CHERRY

Ornamental as well as useful, both in flower and fruit; and on account of its dwarf growth can be grown in pots if desired like the Otaheite Orange. The fruits are rich bright red in color and most delicious flavor. A most desirable plant that will interest the "Shutins" for house culture.

Strong plants, 45c each; 2 for 85c; postpaid.

STRAWBERRY GUAVA

Another luscious tropical fruit and charming house plant, rivaling the famous Otaheite Orange in beauty. It is a nice, clean grower, with thick glossy green leaves, and, like the orange, it bears both flowers and fruit at the same time. The flowers are pure white and delightfully fragrant. The fruit is large, nearly the size of a walnut, and of a beautiful reddish color; the flavor is delicious, sweet and spicy, and yet rich and delicate. It is very rare and interesting. The plant begins to bloom and bear fruit while quite small. Fruit makes the highly famed "Guava Jelly."

Strong Plants, 45c each; 2 for 85c; postpaid.

SMYRNA FIG

A dwarf variety imported from the far East, of compact, hardy growth, making little wood. As a pot or tub plant it is extremely valuable either indoors or outside. It will winter safely in an ordinary cellar, or it can be allowed to harden off with a few frosts in the early Fall and then brought indoors for growing during the winter. The fruit is of medium size, very sweet and almost seedless. For the South it is nearer a perpetual bearer than any other variety of Figs, and will produce three crops in a season. The ideal Fig for pot culture in the North, and it is one of the rare plants that you should not miss getting. Strong plants on own roots, grown from fruiting wood which will commence to bear at once.

Strong Plants, 45c each; 2 for 85c; postpaid.

POMEGRANATE

A beautiful, shrubby plant of symmetrical growth, equally good for bedding or pot culture in the house. The blossoms are of a beautiful orange scarlet color. It is quite hardy in the South, remaining uninjured there in open ground in Winter; in the North the plant may be stored in the cellar to protect it against severe frost. Strong Plants, 45c each; 2 for 85c; postpaid.

Buckbee's
New
Everbearing
Ponderosa
Lemon

BUCKBEE'S NEW EVERBEARING PONDEROSA LEMON

A Lemon that can be as easily grown in a pot as a Geranium and which produces fruit weighing from one to three pounds each. These enormous fruits are borne on plants one to two feet high, growing in pots. It is everbearing and its fruit is delicious for lemonade and culinary purposes. The enormous Lemons have a thin rind and are full of acid juice. Will thrive in any good soil, either indoors or out. One of the very finest plants for house culture.

Our price is for the very best plants. Select, postpaid, 25c to 35c each. Extra large plants, by express, \$1.50 to \$2.50 each.

OTAHEITE ORANGE

An extra fine pot plant, with glossy leaves, the true fragrant Orange blooms and abundant little bright Oranges that will hang on the little bush like balls of gold for six months after they are ripe. They will bloom and fruit in a two-inch pot; and we have seen a plant in a common window that was but 15 inches high and had 23 oranges on it. With good sunlight they are never out of fruit from one year's end to another, and at least two-thirds of the time are in flower also. The fruit is very sweet and handsome. In beauty, grace and fragrance there is nothing like it. Fine plants for blooming and fruiting soon.

Nice young thrifty plants, postpaid, 25c to 35c each. Extra large plants, by express, \$1.50 each.

BUCKBEE'S "FULL OF LIFE"

PAEONIES

No flower exceeds them in popularity, and none more easily grown. Everyone knows the old-fashioned "Piney" of our grandmother's garden. There is no other flower that will give you such an attractive display of flowers and supply of cut flowers. When once planted they practically take care of themselves, and are well adapted to be planted in the border bed in solid masses. They are among the showiest and most useful of all hardy plants.

JAPANESE IRIS

(Iris Kaempferii)

These magnificent Iris are among the most beautiful of our Summer-flowering plants and are becoming more popular every season. They commence blooming about the middle of June and continue for five or six weeks. Many of these flowers measure from 10 to 12 in. in diameter, and rival the Orchids in their rich colorings and markings. Price, postpaid, Choicest Mixed, all colors, each, 35c; 3 for \$1.00; \$3.50 per dozen.

Fleur de Lis

New Roosevelt Fern

Lace Fern

FERNS—Rare and Beautiful

NEW ROOSEVELT FERN

The Greatest Fern of the Age

In general characteristics it resembles the Boston Fern, but it produces many more fronds, making it a bushier and handsomer plant; then the pinnae are undulated, giving it a pronounced wavy effect seen in no other fern.

Fine young plants 25c, 35c and 45c each, postpaid.

Larger plants \$1.00, \$2.00, \$3.00 each, by express, not prepaid.

THE BOSTON FERN

Nephrolepis Bostoniensis

This is one of the old standbys, and still one of the best. Its long, graceful drooping fronds often attain a length of 5 or 6 feet in a single year.

Fine young plants 20c, 30c and 40c each, postpaid.

Larger plants \$1.00, \$1.50, \$2.00 each, by express, not prepaid.

THE OSTRICH PLUME FERN

Nephrolepis Piersonii

A strong, vigorous grower, resembling the Boston Fern somewhat, but the fronds are much heavier and more feathery, and arch over in a most graceful manner, showing two shades of green and producing a lovely mossy effect, which adds greatly to its beauty.

Fine young plants 30c, 40c and 50c each, postpaid.

Larger plants, \$1.00, \$2.00, \$3.00 each, by express, not prepaid.

THE NEW CRESTED FERN

Whitmanii

We think this the most popular Fern. Rather dwarf in growth, but graceful, very compact, dense and feathery. Each frond or branch has a double row of perfect little fronds set at right angles to the mid rib, and so thick they seem almost crowded. It is a healthy, vigorous grower, constantly unfolding fresh fronds of light green that contrast exquisitely with the deep green of the older fronds. It is somewhat like Roosevelt, but decidedly more fluffy, more delicate and beautiful.

Fine young plants 25c, 35c and 45c each, postpaid.

Larger plants \$1.00, \$2.00, \$3.00 each, by express not prepaid.

NEWPORT PARLOR FERN

Resembles the Boston in some respects, but grows more erect, has shorter, narrower fronds and makes three times as many of them. Thrives nicely in parlor or living room, requires very little attention.

Fine young plants 25c to 35c each, postpaid.

Larger plants \$1.00, \$2.00, \$3.00 each, by express, not prepaid.

BUCKBEE'S LACE FERN

The rare and delicate beauty of this plant can scarcely be shown by a picture or conveyed by a description. The bright green foliage of very delicate texture falls gracefully, giving it a style and air that cannot be surpassed. No more beautiful decorative plant has ever been produced. As a house plant it is deservedly popular, due to the fact that it will thrive under almost all conditions.

Fine young plants 25c to 35c each, postpaid.

Larger plants, \$1.00 to \$1.50 each, by express, not prepaid.

BUCKBEE'S FEATHER FERN

Grows freely the whole year round, producing sprays 4 to 5 feet long of fresh, green feathery foliage. Valuable for cutting for fine cut flower work, more particularly in use with large roses. Grown in suspended pots it makes a very pretty decorative house plant.

Fine young plants 25c to 35c each, postpaid.

Larger plants \$1.00 to \$1.50 each, by express, not prepaid.

FERNS FOR FERN DISHES

Dainty and Beautiful

We have grown a large quantity of small Ferns suitable for Fern dishes. Assorted varieties.

Each, 20c; 3 for 55c, postpaid.

PALM

Kentia Belmoreana

Exceedingly popular parlor Palm. Decidedly rugged under all kinds of treatment.

Fine strong plants 50c each, postpaid. Large specimen plants \$5.00 to \$7.50 each, by express, not prepaid.

Wonderful Rose for Winter Bloom

Golden Emblem

GOLDEN EMBLEM

A True Golden Yellow Color

The Finest Rose for Winter
Blooming in the House
That Was Ever
Grown

This new Rose is the most beautiful plant we have ever seen. When in bloom it surpasses the Marechal Niel both in its beautiful shape and wonderful color, which is rich, deep golden yellow; the best and most satisfactory yellow ever seen in a Rose. In bloom constantly, being perpetual flowering. The flowers are always large and perfect, making it, we believe, the most striking and remarkable Rose known today. Strong plants 45c each; large two-year-old plants 95c each.

HARDY HYBRID PERPETUAL ROSES

American Beauty—A rich shaded crimson.
Clio—Flesh color with a rosy pink center.
General Jacqueminot—Shining crimson.
Paul Neyron—Deep, shining rose.
Prince Camille de Rohan—Velvety crimson.

SPECIAL PRICE—Strong plants, postpaid, 30c each; 3 for 85c. Large two-year-old Roses 70c each.

Frau Karl Drusky—The best pure white.
Ulrich Brunner—The crimson beauty.
Mrs. Sharnan Crawford—Rosy pink.
Roger Lambelin—Variegated crimson and white.

Glory de Lyonaise—Yellow shaded white.

CLIMBING VARIETIES OF HARDY ROSES

American Pillar—Carmine rose.
Climbing American Beauty—Dark crimson.
Excelsa or Red Dorothy Perkins—Crimson scarlet.
Improved Crimson Rambler—Rich crimson.
Improved Yellow Rambler—Saffron yellow.
Marechal Niel—Golden yellow.
Prairie Queen—Bright rosy red.
Tausendschon or 1000 Beauties—Colors white to pink.
Trier—Creamy white—semi-double.
White Dorothy—Pure white.

SPECIAL PRICE—Strong plants, postpaid, 25c each; 3 for 70c. Large two-year-old plants 60c each.

NEW ROSE VIOLET BLUE (Veilchenblau)

This Rose blooms abundantly for us every Spring and Summer, a rosy lilac when opening, changing to amethyst or metallic blue. No one need doubt that it is real blue—on the violet shade. Grows vigorously, like Crimson Rambler, blooming annually in abundant clusters.

Strong plants 30c each; 3 for 85c; postpaid.
Large two-year-old plants 70c each.

BABY RAMBLERS

CRIMSON BABY RAMBLER—It is equally valuable as a pot or garden Rose, and blooms profusely Summer, Winter, Spring and Fall. Freshly rooted cutting plants when only a few inches high begin to bear most beautiful clusters of bloom. Fine plants, postpaid, 25c each; 3 for 70c. Large two-year-old plants 75c each.

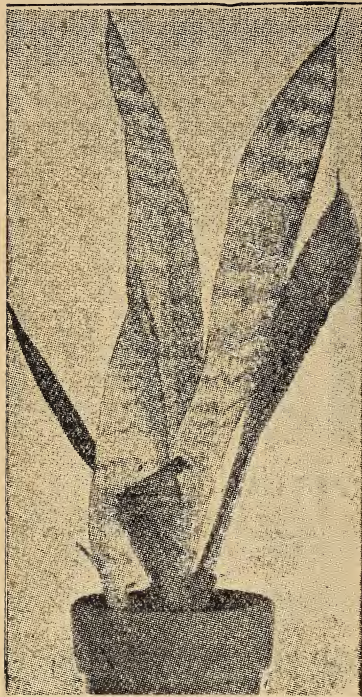

WHITE BABY RAMBLER—This does not differ from the above except in color, which is purest snow white. Fine plants, postpaid, 25c each; 3 for 70c. Large two-year-old plants 75c each.

PINK BABY RAMBLER—Flowers cerise pink, center chrome yellow. Fine plants, postpaid, 25c each; 3 for 70c. Large two-year-old plants 75c each.

New Crimson Baby Rambler

BUCKBEE'S "FULL OF LIFE" DECORATIVE HOUSE PLANTS

The Beautiful Tiger House Plant

THE BEAUTIFUL TIGER HOUSE PLANT

Sanseveria Zealanica

A New Decorative Plant of Great Value

There is scarcely a decorative plant listed that is more striking in foliage and habit than this, and certainly none other that will stand as much downright neglect and hardship. Nothing but frost or a continual drenching with water has terrors for it. It will grow in a dark hall, a cool bedroom, or stand on the mantel in a heated sitting room. It will stand gas and dust, and will go for months without a drop of water, yet remain as thrifty as ever. Singularly beautiful, as well as easily grown. Erect, rigid, sword-like leaves, in some old specimens reaching a length of from 4 to 6 feet. The leaves are thick and fleshy, a dark green color, with clouded bars of white. In May and June it sends up long plummy flower spikes, which, in their soft feathery whiteness, remind one of an Agave's flower. Fine plants, postpaid, 25c each; 3 for 70c. Larger plants by express, not prepaid, \$1.00 to \$1.50 each.

CROWN OF THORNS

The Great Biblical Plant

On the Wild Rocky Hills of Judea this emblematic plant is found. Very peculiar, thorny, with a few bright green leaves and an abundance of light rose blossoms. Easy to grow, can be trained to assume any desired shape. Fine plants 25c each; 3 for 70c; postpaid.

Australian Silk Tree

THE AUSTRALIAN SILK TREE

Magnificent Decorative House Plant

A magnificent plant for decorative purposes, of rapid easy growth, finely cut foliage, rivaling a rare fern. The young, growing leaves are a light brown color, the tips being covered with a soft down, closely resembling raw silk, hence the name "Silk Oak." In its native place it attains magnificent proportions and produces an abundance of bright, orange-colored flowers. 20c each; 3 for 55c; postpaid.

Crown of Thorns

Royal Purple Plant

ROYAL PURPLE PLANT

Strobilanthes—The leaves are beautifully variegated, with a deep metallic purple, shaded with dark rose and margined light green. It is particularly fine for beds and border and is entirely distinct from any other bedding plant. Grown as a pot plant in the house it is very bright and effective. 20c each; 3 for 55c; postpaid.

BRAZILIAN PLUME PLANT

A native of Brazil, of the easiest possible culture, and does well in all kinds of soil, and in any situation. It is a strong, rapid grower, and throws long shoots, each of which is tipped with beautiful pink, plume-like flowers, the ends of every petal drooping in a most charming manner. It is a grand pot plant, commencing to flower when the plants are very small, and blooming profusely for several months out of the year. 25c each; 3 for 70c.

Brazilian
Plume
Plant

THE BEST GRAPES

Grapes can be planted in the Fall with excellent results. In fact, a year's time can be gained by planting now. The two varieties most generally grown are given below.

CONCORD—The standard black blue. Vigorous, hardy and a splendid bearer. Strong two-year-old plants 30c each; \$3.00 per dozen; postpaid.

NIAGARA—The best white. A beautiful grape and very prolific. Strong two-year-old plants 35c each; \$3.50 per dozen; postpaid.

THE STRAWBERRY GERANIUM

One of the handsomest plants imaginable, a gem of many colors, exceedingly rare and beautiful. Leaves nearly round, and striped freely with silver bands; blooms white, of great beauty and borne in spikes nearly 12 inches high; of easiest growth. Adapted for hanging baskets, vases, etc. Will stand neglect and mistreatment. 20c each; 3 for 55c; postpaid.

Fruits

English Ivy

ENGLISH IVY

Queen Victoria—This is a hardy true evergreen climbing vine, with dark glossy green leaves. Much used for covering walls of churches, etc., and for cemetery work; also one of the very best plants for house culture. 20c each; 3 for 55c; postpaid.

BUCKBEE'S "FULL OF LIFE" FLOWER SEEDS FOR FALL PLANTING

Forget-Me-Not

Campanula

HOLLYHOCK

CONDENSED LIST OF STANDARD VARIETIES

By sowing hardy varieties of flowers during August and September a brilliant display of flowers can be secured at a small cost quite early in Spring at a time when usually the garden is comparatively bare, and these plants from Autumn sown seeds generally become larger and more robust and flower more profusely than if sown in Spring. Perennial flowers especially should be sown in Fall as most of them will not bloom the first year if sown in Spring, but if sown early enough, not later than October, they can make good plants before frost, and will bloom freely the following year.

The varieties marked with a cross (x) are perennials.
(See general catalog for description of varieties.)

BUCKBEE'S "FULL OF LIFE" BEAUTIFUL PANSIES FOR AUTUMN SOWING

Buckbee's Mammoth Jubilee Mixture

To have the earliest flowers, Pansy seeds should be sown in the fall, any time from August to November. They are quite hardy and all the Winter protection they need is a little brush or straw to keep the snow from pressing too heavily upon them. If you want Pansy blooms early in the Spring, TRY THIS PLAN.

BUCKBEE'S MAMMOTH JUBILEE MIXTURE

Although we have always had splendid assortments of immense Giant Flowered Pansies, we this year have in our Mammoth Jubilee Mixture the grandest collection of beautiful Pansies ever seen. All are of immense size. Many are so deeply fluted and frilled as to appear almost double, while others have variations and markings that cannot be described. Thousands of our customers have already grown this wonderful blend. Our new stock seed is now ready and our Jubilee Mixture this Fall is even better than before. Large packet 15c; 2 pkts. 25c; 1/3 oz. 95c.

BUCKBEE'S GIANT FLOWERING MIXED

In this magnificent mixture of giant flowering Pansies the colorings are wonderfully rich and varied; every shade and tint of rose, canary-yellow, black, white, cream, lavender, garnet, sky-blue and orange are produced in endless variations and striking combinations, while others have silvery grounds heavily blotched at the base of each petal with a dark rich shade. The enormous flowers are of thick velvety texture, perfect form, and borne on long stems well above the foliage. The compact rounded plants are of sturdy habit and deep rooted, so that they bear the gigantic flowers profusely and continuously. Pkt. 10c; 1/4 oz. 90c.

BUCKBEE'S MAMMOTH SUNRISE MIXTURE

This splendid mixture is a blended combination of mammoth flowering Pansies. It contains all colors and will prove a delightful surprise in regard to the great size and rich and varied colorings of its flowers. Very popular. Pkt. 10c; 1/3 oz. 75c.

BUCKBEE'S WORLD'S FAIR PRIZE MIXED

This mixture was awarded Grand Prize Medal at the World's Fair. It is an exceedingly fine mixture, producing flowers of rare beauty in both colorings and markings. Pkt. 7c; 1/2 oz. 55c.

BUCKBEE'S SWEET SCENTED MIXTURE

The Perfume of the Violet. The Beauty of the Pansy

This new class is the result of crossing the Pansy (*viola tri-color*) with the Sweet Violet (*viola cornuta*) the resulting hybrids, in addition to retaining the delightful Violet perfume, produce the most beautiful Pansy-like blossoms, 2 to 2 1/2 inches across, of great substance and of an endless variety of colors. Mixed. Pkt. 8c; 1/2 oz. 60c.

"Full of Life" Alfalfa
See the Wonderful Root Growth

Japan Clover or Lespedeza

A valuable perennial Clover for the South. Stands excessive drought and is particularly suitable for wornout soils, waste lands and woodland pasture, growing well in the shade.

Especially valuable for pasture and green fertilizer. On good and moist soils it grows 20 inches high and can be cut for hay. It is of low spreading growth on poor soils, furnishing pasture from June till frost. When once established, it usurps the land, driving out all wild grasses and weeds, but can be easily eradicated. Its large roots, when decaying, leave the soil porous and greatly enriched. Postpaid, pkt. 10c; lb. 50c; 3 lbs. \$1.45.

Crimson Clover (Giant Incarnate)

Valuable for Pasture, Soiling, Hay, But Especially for Plowing Under to Restore Wornout Soils

Crimson Clover forms upright branching plants, 2 to 3 feet high, blooms a month earlier than Red Clover. It roots very deeply and is a bountiful provider of nitrogen. It grows most luxuriantly on fertile loam, yet it will thrive better on thinner and poorer soil than Red Clover. It is more efficient for green manuring than the latter. A plowed under crop of Crimson Clover is equivalent to 20 tons of stable manure per acre.

It is one of the best clovers for use in the silo, yielding up to 20 tons of green forage per acre. For soiling and for pasture it is frequently sown with Rape, Winter Rye or Vetches. Sow at the rate of 15 pounds per acre. Price, postpaid, pkt. 10c; lb. 35c; 3 lbs. \$1.00.

Buckbee's "FULL of LIFE" ALFALFA

Northern Grown, Re-Cleaned, Government Inspected Seed

THE QUEEN OF FORAGE PLANTS

As a highly nutritious feed for horses, cattle, sheep, hogs and poultry—as pasture—as a means of giving fertility to the soil—Alfalfa has within a few years succeeded wonderfully in most States of the Union and ranks higher than Timothy and other Clovers in feeding value.

**THERE IS NO STATE IN THE UNION
WHERE IT CANNOT BE SUCCESS-
FULLY GROWN**

GRIMM OR EVERLASTING ALFALFA—

This is the Queen of all the Alfalfas, the hardiest, the most lasting, most productive, having survived Winters that killed out many fields of other varieties of Alfalfa. We offer a limited amount of the very finest grade Northern Grown "Full of Life" seed. Price, postpaid, pkt. 10c; lb. 65c.

HARDY NORTHERN—Montana is producing a very fine grade of Alfalfa. The seed is usually exceptionally large and of high germination. Our seed is obtained in those sections where plants have endured the extreme cold of Winter and thrive at high altitudes. We have been able to secure a reasonable quantity of exceedingly bright seed. Postpaid, pkt. 10c; lb. 45c; 3 lbs. \$1.30.

Burr Clover

An annual Clover for the South; matures in May. A most valuable Winter grazing crop, growing luxuriantly all through the Winter. After once being seeded, it re-seeds itself and improves in growth each succeeding year. It is admirably adapted for growing with Bermuda Grass; the combination of the two makes a splendid all-the-year-round pasture. Sow 15 pounds per acre from July to October.

Price, hulled seed, postpaid, pkt. 10c; lb. 45c; 3 lbs. \$1.30.

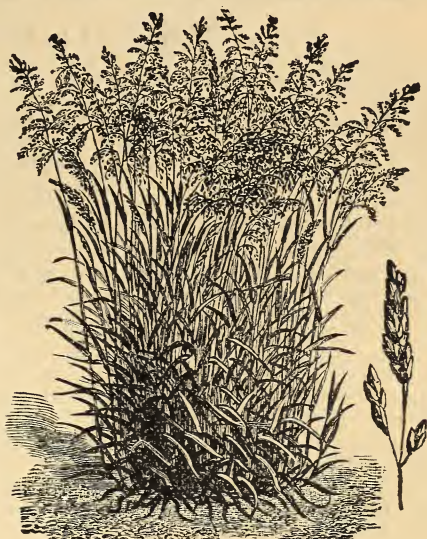

See Inclosed Field Seed Price List for Seeds in Quantity.

Buckbee's "Full of Life" Grasses

Buckbee's "Full of Life"
Timothy

Bromus Inermis

TIMOTHY

As a crop for hay, Timothy is probably unsurpassed by any other grass. It is greatly relished by all kinds of stock, especially horses. It yields more nutritive matter than any other grass or forage plant. It is well suited for a permanent pasture, as it will hold its own for several years, before running out. Well adapted to early Spring grazing, as it starts up quickly in the Spring, and in favorable Fall weather can be pastured in the Autumn as well. Our "Full of Life" Brand will stand the test of any Pure Seed Law in the world. Will range better than 98% purity and 95% germination. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

BROMUS INERMIS

Acknowledged King of the Deserts and Dry Sandy Soils. Makes lots of early Spring and Late Fall Feed, besides Good Crop of Hay.

This highly useful grass grows to a height of 3 feet and sometimes 5 feet. A native of Hungary. It has done remarkably well in America, especially on dry, arid soils. A hardy perennial, it is well adapted to cold climates and exposed situations. Produces satisfactory crops on land too poor for Timothy and other grasses. Tried widely, it has been endorsed everywhere, and is pronounced a great boon to farmers because **IT PAYS ON ANY GROUND**. Use 20 pounds to the acre. It may be sown in the Fall with Winter Wheat. Postpaid, pkt. 10c; lb. 35c; 3 lbs. \$1.00.

ORCHARD GRASS

A valuable grass for pasture or hay land, and on account of its earliness is very well adapted for a permanent pasture. It furnishes the first green grass in the Spring and until late in the Fall. When grown for hay, more than one crop can be obtained in one season, and when only one crop is cut the aftergrowth is very heavy and gives splendid and rich pasture till late in the Fall. It is well suited for shady places, such as orchards and groves. Grows on all kinds of land, but does best on deep, rich sandy loam or clay soils. Buckbee's "Full of Life" Brand, the best obtainable. Postpaid, pkt. 10c; lb. 40c; 3 lbs. \$1.15.

ENGLISH OR PERENNIAL RYE GRASS

One of the best and most nutritious grasses for permanent meadows and pastures. Endures close cropping and recovers quickly after cutting. Does best on strong, rich soils. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

RED TOP OR HERD'S GRASS

Red Top, or Herd's Grass, seems to be adapted to all soils and situations succeeding well on light, sandy soils, as well as stiff upland and low ground, and it really succeeds better in moist situations than almost any other grass. After once being established, it thickens and improves year by year, taking possession of the land and increasing in yield and quantity each successive year. In some sections it is highly appreciated for hay, succeeding Clover and Timothy when they have dried out. It is a good forage plant when kept fed close, as it is not relished after it grows up to seed. Sow (if alone) broadcast in Fall or Spring 2 to 3 bushels per acre. Often used as an ingredient for lawn grasses. Postpaid, pkt 10c; lb. 45c; 3 lbs. \$1.30.

BERMUDA GRASS SEED

A perennial, sun-loving grass, spreading extensively by creeping stems, which produce every inch or so roots and new stems. The most valuable of all grasses for pastures in the South. Grazing can be had from May to the middle of November. Excellent soil binder. Seed is planted 6 or 8 pounds per acre. Postpaid, pkt. 10c; lb. 70c; 3 lbs. \$2.05.

See Inclosed Field Seed Price List for Seeds in Quantity.

Buckbee's "Full of Life" Oats

FOR FALL SOWING

In the Middle and Southern States the Fall seeding of oats is decidedly to be recommended in preference to Spring seeding. The yields are decidedly better; the Fall-sown oats mature earlier and the land can usually be prepared in better shape in the Fall than in the Spring. Fall seeding interferes less with other work than does Spring seeding, and poorer land and less fertilizer can be used for the Fall-sown crop. The Fall-sown crop also furnishes a cover for the soil during the Winter and prevents washing, and where sown early enough, the oats can be grazed during the open weather in the Winter and early Spring without material injury to the crop afterward.

The Fall-sown oats almost invariably yield more than the Spring oats, owing to their earlier maturity, stronger growth and greater freedom from disease. Even if a part of the stand is lost from Winter killing, the plants which are left stool vigorously, so that the stand at harvest is much better than was apparent in early Spring. Fall-sown oats also grow more vigorously and mature from ten days to two weeks earlier than those sown in the Spring. This early maturing often marks the difference between success and failure, as later maturing grain is more likely to be injured by storms and by rust and other plant diseases.

Oats require comparatively cool weather for their best growth, so that those which mature earliest usually yield best, as conditions are better suited to their development. The early maturity incident to Fall seeding also allows the crop to be removed from the land earlier than Spring seeding, giving more time for the preparation of the soil, seeding and growth of the following crop.

TEXAS RED RUST-PROOF WINTER OATS

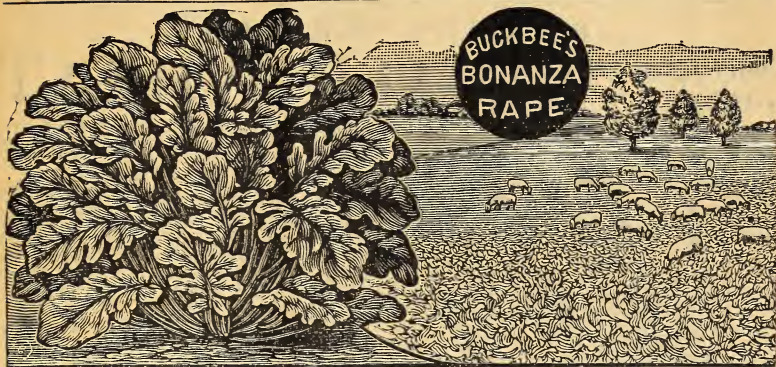

A standard favorite not only in Texas, from which it derives its name, but all through the Southern States. Texas Rust-Proof Oat has a very heavy berry, nearly every one has a distinctive beard, protecting it from the sun and enabling it to stand extreme heat. It has short, strong, stiff straw and does not lodge easily. These oats are much used on light, sandy soils and also for low grounds, where oats are likely to rust. These oats can be sown in Fall and Spring. Sow 2 bushels per acre. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 65c.

WINTER TURF OATS

Sometimes called Virginia Gray. This splendid variety has proven immensely popular and satisfactory wherever it has been grown. When sown early in Fall and the roots thoroughly established in the soil, it is very hardy and will stand a great deal of cold. Its stooling propensities are remarkable, and on good soil yields from 50 to 70 bushels per acre. The grain is of a dark gray color, with a distinct stripe and weighs heavier than the ordinary oat. These oats can also be sown in Spring and if sown very early will outyield ordinary Spring Oats. Sow $1\frac{1}{2}$ to 2 bushels per acre. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

NEW APPLER WINTER OATS

This is undoubtedly one of the best all round Oats for planting in the Fall as they afford a valuable pasture the greater part of the Winter and early Spring, thus reducing the quantity of other necessary food. They may be harvested early enough in the Spring for other crops to follow. This variety spreads and stools out enormously, especially when grazed, and if stock is taken off by March will yield a large crop of grain. This is a very popular oat in the South, especially on the light sandy soils of the coast region. Prices, postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

BUCKBEE'S DWARF BONANZA RAPE

Makes Splendid Fall, Winter and Spring Pasturage. Fine for Cattle, Sheep and Hogs

Rape for Fall sowing should be put in in August or September. It makes a large-yielding, nutritious, succulent green feed or pasturage all through the Fall, Winter and early Spring. The fattening properties of Rape are said to be very much better than those of clover, and it makes a first-class crop either for sowing alone, or, for grazing during the Fall and Winter, can be sown with Crimson Clover. Rape can be successfully sown both in the Fall and Spring. Early Fall seeding, however, gives the best results. Sown in drills 3 to 5 pounds per acre; or it can be sown broadcast, 6 to 8 pounds per acre. Postpaid, pkt. 10c; 1b: 30c; 3 lbs. 85c.

DWARF ESSEX RAPE

A standard variety. Not quite so strong and vigorous a grower as Dwarf Bonanza, but never fails to give the best of satisfaction. Fine imported seed; price, postpaid, 1b. 25c; 3 lbs. 70c.

GIANT WINTER RYE

A heavy cropper, with stiff straw, large heads and plump, heavy grains. Postpaid, pkt. 10c; 1b. 25c; 3 lbs. 70c.

NEW ROSEN WINTER RYE

This famous Rye has doubled the yield obtainable with any other kind. Rosen Rye has very stiff straw and very large heads with four rows filled with very large kernels. It is a characteristic of the Rosen that the four rows are always evenly well filled on 99% of the heads, while Common Rye seldom shows a well filled head. We offer genuine, pure, clean, stock. Postpaid, pkt. 10c; 1b. 30c; 3 lbs. 85c.

Buckbee's
Sand
Vetch

BUCKBEE'S "FULL OF LIFE" Sand or Winter Vetch

(Vicia Villosa)
For Fall Sowing

The earliest crop for cutting or plowing under in Spring, being nearly a month earlier than Scarlet Clover, and a full crop can be taken off the land in time for planting Spring crops.

It is perfectly hardy throughout the United States, remaining green all Winter, and should be sown during August or September, mixed with Rye, which serves as a support for the plants, or in Spring with Oats or Barley.

It succeeds and produces good crops on poor, sandy soils, though it is more vigorous on good land, and grows to a height of 4 or 5 feet.

It will also prove valuable for a Hay crop in the South and dry Western regions, as it may be sown in the Fall. If Vetches are sown alone, without being put in with oats or wheat, they should be sown at the rate of 35 to 40 pounds per acre. It is much better, however, to sow them with Oats or Wheat.

Postpaid; pkt. 10c; 1b. 35c; 3 lbs. for \$1.00.

See Inclosed Field Seed Price List for Seeds in Quantity.

New Rosen Rye

BUCKBEE'S "Full of Life"

Northern
Grown

WINTER WHEAT

Harvest King

HARVEST KING—A decidedly popular variety. Is very hardy; vigorous growth; great stooling propensities, and for productiveness and good milling qualities it has few equals. It is not liable to blight or rust; the straw is large and stiff and if blown down by a hard storm will not break but head and regain its upright position after the sun shines. Heads are smooth, large and compact and the grain is heavy. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

HARVEST QUEEN—Another beardless variety, white chaff, golden-yellow grain; a splendid yielder; while not as hardy as our Red Turkey, it has been grown for years with good success in Southern Minnesota. This and Harvest King are the hardest varieties of beardless Winter Wheats known, giving excellent results in all parts of the Cornbelt. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

BUCKBEE'S RED TURKEY—This is a bearded variety and is the hardest known; it can be planted in almost all parts of the Northwest and is also the best adapted sort for the states of Nebraska, Kansas, Oklahoma, etc. It is one of the earliest varieties of Winter Wheat and matures before rust and chinch bugs appear. The heads are long, well filled with large, flinty grains of reddish-amber color equal to No. 1 Hard Spring Wheat. Postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

The best, most reliable and most productive varieties, adapted to all sections where Winter Wheat is grown and which we believe will give the best results.

Under favorable conditions anybody can grow crops, but the farmer who grows crops when the Winter destroys and drought ruins is the one who will be at the same old stand when others are gradually being pushed out. In other words the farmer of today who will discard the old varieties of Wheat he has been sowing for years and replace it with a first class article of sterling merit will have Wheat to sell when others have Wheat to buy. This is absolutely true. Many varieties of Wheat which were standard sorts a few years ago are not so reliable as they used to be, hence the necessity of getting others to take their place. While we have grown a great number of different kinds of Winter Wheat on our Rockford Seed Farms we have tested three or four times as many on our Trial Grounds and are glad to report that out of the lot, these three give great promise of usefulness in the Wheat line.

Buckbee's
Plant Food

A dressing made expressly for plants grown in the house, garden or conservatory; clean and productively and abundant blossoms, healthy, luxuriant plants. One package is enough for 30 plants for 3 months.

Pkt. 25c postpaid

Red Turkey

Egyptian or Perennial Tree

A Single Stalk of Egyptian Onion Sets
and a Bunch Ready for Market

BUCKBEE'S "FULL OF LIFE" ONION SETS FOR FALL PLANTING

Egyptian or Perennial Tree Winter Sets

Onion Sets when planted in the Fall of the year, make one of the best paying crops that can be grown. It is the very first vegetable in the Spring, being ready for the table before anything else can even be planted out of doors. Coming at this time it is not only very desirable for the family table, but any surplus can easily be disposed of at a fancy price.

This variety never forms a large bulb. Its value lies wholly in its special adaptability to produce Green Onions for Spring or Fall use. It is perfectly hardy, and when once set out will come up year after year. Can be planted either in Spring or Fall. We can supply these sets for shipment from September 1st to the following March 1st. This variety increases by producing sets at the top of the stalk and does not produce seed.

Plant at least a pound this Fall. They take up little room, and when once planted, take care of themselves year after year. Price $\frac{1}{2}$ lb. 20c; 1b. 35c; postpaid.

BUCKBEE'S "Full of Life" MUSHROOMS

High Grade, Pedigreed, Virgin Spawn

We can safely assure all Mushroom growers, as well as those who have never grown any, but are on the point of trying it, that they will find Sure Crop Spawn to be all that is claimed for it and more. It produces immense crops and the Mushrooms are in demand at the very highest market prices.

GET RELIABLE SPAWN. START RIGHT AND THE RESULTS ARE CERTAIN

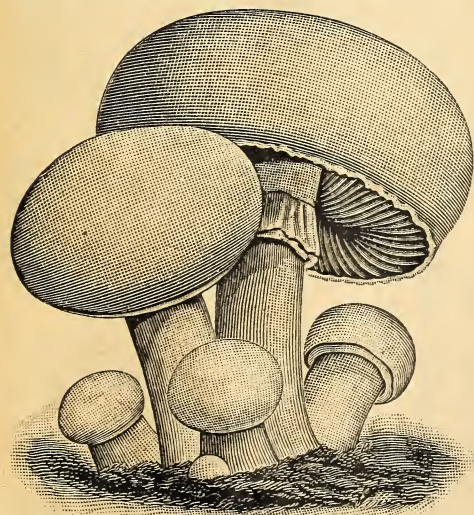

BUCKBEE'S SURE CROP SPAWN

To meet the demand for Buckbee's Sure Crop Spawn, and to provide against deterioration of its producing qualities, our arrangement with the producer is for frequent shipments, which renders it absolutely certain that you will be furnished with spawn, that, if handled properly, will bring big returns.

By mail, postpaid, brick (wgt. about $1\frac{1}{4}$ lbs.) 45c. At buyer's expense: Bricks 35c; 5 bricks \$1.50; 10 bricks \$2.75; 25 bricks \$5.50; 100 bricks \$20.00.

BUCKBEE'S HIGH GRADE ENGLISH SPAWN

Comes in pressed bricks weighing a pound or more. Price, postpaid, brick (wgt. about $1\frac{1}{4}$ lbs.) 40c. Not pre-paid, brick 25c; 5 bricks \$1.05; 25 bricks \$3.25.

Buckbee's Sure Crop Mushrooms

BUCKBEE'S "FULL OF LIFE" VEGETABLE SEEDS.

For Forcing and Fall Planting

Condensed List of Standard Varieties

Buckbee's Famous "FULL OF LIFE" Lawn Grass SEED

Makes a Perfect Lawn

**HARDY, LUXURIANT,
ALWAYS GROWS**

BUCKBEE'S WORLD'S FAIR LAWN GRASS SEED

THE VERY BEST LAWN SEED EVER OFFERED

This famous Prize-Winning Lawn Grass is made up of a most evenly balanced combination of native and foreign fine-leaved, deep-rooting grasses that interweave and flourish in different soils and climates, each showing its best strength at seasons different from the others, and thus keeping the lawn vigorous and green from Winter's end to Winter's next advent.

Was awarded the great Columbian Prize at the World's Fair. This mixture was used by the World's Fair authorities to produce the beautiful lawns, which were without question, one of the greatest features of the Fair. It is the *Ideal Mixture*, and is unrivaled for purity and luxuriance in growth and will give complete satisfaction wherever sown. With ordinary care, anyone can, by using this mixture, secure a beautiful lawn. Complete and explicit directions on "How to Make a Lawn" accompany every package of this seed. The quantity table on this page shows the amount of seed to plant in a given area. Price, postpaid, $\frac{1}{2}$ lb. 30c; 1 lb. 50c; 3 lbs. \$1.45. Large quantities by express or freight, not prepaid, 5 lbs. \$2.25; 10 lbs. \$4.40; 15 lbs. \$6.45; 25 lbs. \$10.50.

SHADY PLACE LAWN GRASS SEED

THE VERY BEST OBTAINABLE—CAREFULLY BLENDED

On nearly all lawns there are unsightly bare spots under the shade of trees, which have baffled all efforts to get into grass, but with this mixture there need be no further difficulty. It is a combination of fine dwarf-growing, evergreen varieties which in their wild or natural state are to be found growing in the woods or other sheltered and shaded spots. Ground that has been densely shaded by trees is frequently "sour" and if the drainage is defective it is apt to be covered with moss and coarse bog grasses. In such cases an application of slake lime, at the rate of one bushel to each thousand square feet, or 40 bushels to the acre, is an excellent corrective and sweetener, but the moss should be first removed.

Sow from 50 to 60 pounds per acre for a new lawn or bowling green; 15 to 20 pounds per acre will be sufficient to improve existing turf. Price, postpaid, $\frac{1}{2}$ lb. 35c; 1 lb. 60c; 3 lbs. \$1.75. By express or freight, not prepaid, 5 lbs. \$2.75; 10 lbs. \$5.40; 15 lbs. \$7.95; 25 lbs. \$13.00.

VELVET GREEN LAWN GRASS SEED

A SPLENDID STANDARD MIXTURE

This special mixture does not include so great a number of expensive grasses as our "World's Fair Mixture," but full provision is made for a succession of growth and a careful blending in proper proportion and thoroughly mixed for quickly producing a permanent, thick and velvety sward of uniform growth and rich green grass free from coarseness. Prices, postpaid, $\frac{1}{2}$ lb. 25c; 1 lb. 45c; 3 lbs. \$1.30. By express or freight, not prepaid, 5 lbs. \$2.00; 10 lbs. \$3.95; 25 lbs. \$9.65.

WHITE CLOVER (For Lawns)

This is a valuable pasture and lawn grass, thrives best on moist, rich ground; does not succeed well on thin soil. Makes excellent forage for Bees. In conjunction with Kentucky Blue Grass it forms a desirable permanent pasture for sheep and cows. Postpaid, pkt. 10c; 1 lb. 70c; 3 lbs. \$2.00.

KENTUCKY BLUE GRASS

EXTRA FANCY

Our "Full of Life" Seed is unsurpassed. Many prefer this to a mixture of grasses, and the fact cannot be denied that a lawn of Blue Grass is magnificent; it takes longer, however, to get it established. Very desirable for wood lawns, pastures, and especially excellent for winter pastures because of its thick, heavy growth. Price, postpaid, pkt. 10c; 1 lb. 50c; 3 lbs. \$1.45.

Quantity of Lawn Grass Seed to Use

1 lb. for 350 square ft.	25 lbs. for one-fourth acre.
5 lbs. for 1750 square ft.	50 lbs. for one-half acre.
10 lbs. for 3500 square ft.	100 lbs. for one acre.
15 lbs. for 5250 square ft.

Vegetable Roots For Fall Planting

ASPARAGUS ROOTS

Every home and kitchen garden should have a bed of Asparagus. The growing popularity which this most delightful and wholesome vegetable has attained the past few years is remarkable. Without question, it is one of the most favorite and profitable garden crops; and makes a return early in the Spring before any other out-door crop can be marketed, and when a bed is thoroughly established will yield splendid crops for a number of years.

Two Year Old Roots

	Postpaid		Not Prepaid	
	Per Doz.	Per 100	Per 100	Per 1000
Buckbee's Perfection	\$0.40	\$1.95	\$1.45	\$10.00
Bonvallet's Giant40	1.90	1.40	9.75
Columbian Mammoth White.....	.35	1.80	1.30	9.25
Donald's Elmira35	1.85	1.35	9.50
New Palmetto30	1.75	1.25	9.00
Conover's Colossal30	1.65	1.15	8.50
Barr's Mammoth30	1.70	1.20	8.75

For success and immediate results we recommend planting the 3 and 4 year old roots.

Owing to the many and numerous requests of our customers for the largest sized roots we have especially grown a fair supply of selected 3 and 4 year roots to meet this demand. Our price, as long as the supply lasts, on any of the 7 varieties listed on this page, only 50c per doz.; \$2.75 per 100; postpaid. By express or freight, at buyer's expense, \$1.75 per 100; \$15.00 per 1000.

HOW TO GROW ASPARAGUS

Complete cultural directions telling how to plant Asparagus Roots furnished free with every order for Asparagus Roots.

Buckbee's
Perfection Asparagus

PIE PLANT OR RHUBARB ROOTS

A saving of from two to three years is made by planting the roots.

BUCKBEE'S NEW PINEAPPLE

—Price, by mail, postpaid, 25c each; \$2.50 per doz. By express or freight, not prepaid, 20c each; \$2.00 doz.; \$15.00 per 100.

BUCKBEE'S WESTERN MARKET

—Price, by mail, postpaid, 20c each; \$2.00 per doz. By express or freight, not prepaid, 15c each; \$1.50 doz.; \$7.00 per 100.

SMALL RHUBARB ROOTS —

—Postpaid, 15c each; \$1.50 doz.

Buckbee's New Pineapple

HORSE RADISH

Horse Radish rarely produces seed, but is grown from pieces of the roots.

NEW BOHEMIAN OR MALINER KREN

Ordinary Horse Radish is a very profitable crop, but with this magnificent new sort from Bohemia the possibilities are wonderful. The roots are so much larger and heavier that the yield is about doubled. Then, too, it matures so much quicker that the crop can be sold in October. The flesh is pure white. Three and four tons per acre can be grown easily. Fine Sets, postpaid, 30c per doz.; \$1.75 per 100. By express or freight, not prepaid, 100 for \$1.35; 500 for \$7.25; 1,000 for \$14.00.

COMMON HORSE RADISH

The old-fashioned standard variety. Sets or Roots, postpaid, 25c per doz.; \$1.55 per 100. By express or freight, not prepaid, 100 for \$1.35; 500 for \$6.25; 1,000 for \$12.00.
